

AMRITA NEGI

GitHub: - <https://github.com/Captain-Ok?tab=repositories>

SUMMARY: -

A dynamic and detail-oriented Front-end Developer specializing in creating responsive, user-centric websites. Proficient in HTML, CSS, JavaScript, and React.js, with expertise in the Three.js library to create visually engaging and interactive web experiences.

TECHNICAL SKILLS: -

- a). HTML
- b). CSS
- c). JavaScript
- d). Reactjs

SPECIAL ABILITY: -

One of my key strengths is my ability to solve problems creatively, combined with a strong capacity for quick learning. This enables me to enhance efficiency and significantly improve my workflow.

PROJECTS: -

Following are some of my projects: -

1. Website featuring smooth scrolling animations for a dynamic user experience.
2. Portfolio website.
3. Interactive 3D image rotator to offer an engaging user experience.
4. A custom voice assistant that performs tasks based on voice commands.
5. An interactive effect that allows users to double-click on images to create a heart animation.
6. A classic snake game developed with JavaScript.
7. Friend thanks book.

EDUCATION: -

I've taught myself everything by leveraging AI tools, social media handles like YouTube, Instagram, Twitter.
