SUMMERY:-

Dynamic and detail-oriented Front-End Developer, creating responsive, user-centric websites and applications. Proficient in HTML, CSS, and JavaScript, with expertise in modern frameworks such as React JS at translating design concepts into interactive, high-performance digital experiences while ensuring cross-browser compatibility and optimizing for speed.

EXPERIENCE: -

Created a Website for Linphase Technology

PROJECT :-

1. Nestle Website home page in my own way : Nestle (captain-ok.github.io)
2. A animated book : Book_for_friend (captain-ok.github.io)
3. A snake game : Snake Game (captain-ok.github.io)
4. A to-do list : Dynamic_toDoList (captain-ok.github.io)
5. Stop-Watch : Captain-Ok/Stop-Watch (github.com)

TECHNICAL SKILLS:-

1. Hyper Text Markup Language (HTML)
2. Cascading Style Sheet (CSS)
3. Java Script (JS)
4. React JS

SPECIAL ABILITY:-

One of my standout abilities is my problem-solving skills combined with a strong creative mindset. When faced with challenges, I approach them by breaking them down into manageable parts and then looking for innovative solutions that might not be immediately obvious. I enjoy thinking outside the box and applying unique solutions to complex issues, which I believe will be a valuable asset in this role.

EDUCATION:-

1. Learned web desiging after 12th By ownself, using google, Youtube and AI for help.
